SUBJECT

**RM-1000
&
RM-80**

JUNE

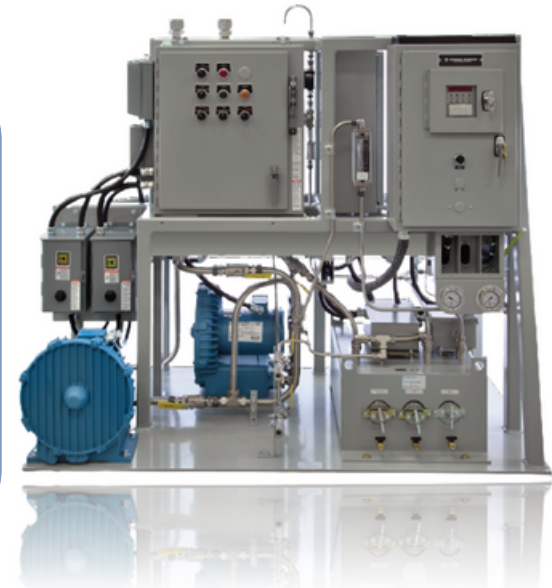

SUBJECT

**DETECTORS
&
RM-80**

JULY

SUBJECT

**RM-2000
&
RM-80**

- GA will be offering various in-person RMS trainings between the months of April and July. If interested in scheduling a training, please fill out the RMS training request form below.
- Other courses are available upon request for the remaining months not listed above.
- All in-person training will be held at General Atomics' San Diego facility.
- The class is limited to 8 students. A minimum of 4 attendees are needed for the class to be held. Attendees can be from multiple plants.
- RM-80 online training is also available to anyone interested in scheduling a class. Online training is not recommended as a substitute for in-person training.
- GA recommends taking both the online training course and in-person training for optimal results. In-person and online training packages are available upon request through submittal of a training request form below.

To request a quote for training, please fill out and submit a request form by clicking the link below:
